Walter Ramsey, Technical support
Blackstone Valley Regional Vocational Technical High School
65 Pleasant Street
Upton, Massachusetts 01568

Dear Mr. Ramsey:

I respectfully ask you to accept this letter for my application for my employment. I would be applying to the job of technical support. I found this job by searching around internet.

I am interested in this job because I would like to apply my hardware, software, and networking skills as I proceed deeper into new advancements. I am qualified in PC Pro and OSHA 10-hour general. I am trained in networking, I also have experience with building PC's, and topologies. PC Pro it's all about the PC itself, the configuration, building and troubleshooting. I apply these skills in shop by doing activities with the broken computers, and or building computers. I then further build upon the network, creating IP addresses, making routers and PC very secure and safe. My employment could benefit the company by its newer minded person. Computers and networks are always changing and having a newer mind would be great to further move with the new development. For more details, please proceed to my resume.

I would love the opportunity to discuss my abilities in an interview with you, so I may give you a better understanding of my personality and communication skills. Please contact me at (774) 571-8074 or my email smarv0907@gmail.com. I will check in with you in about a week if I don't hear back. Thanks you for your consideration.

Sincerely,

Samantha Marvelle
